

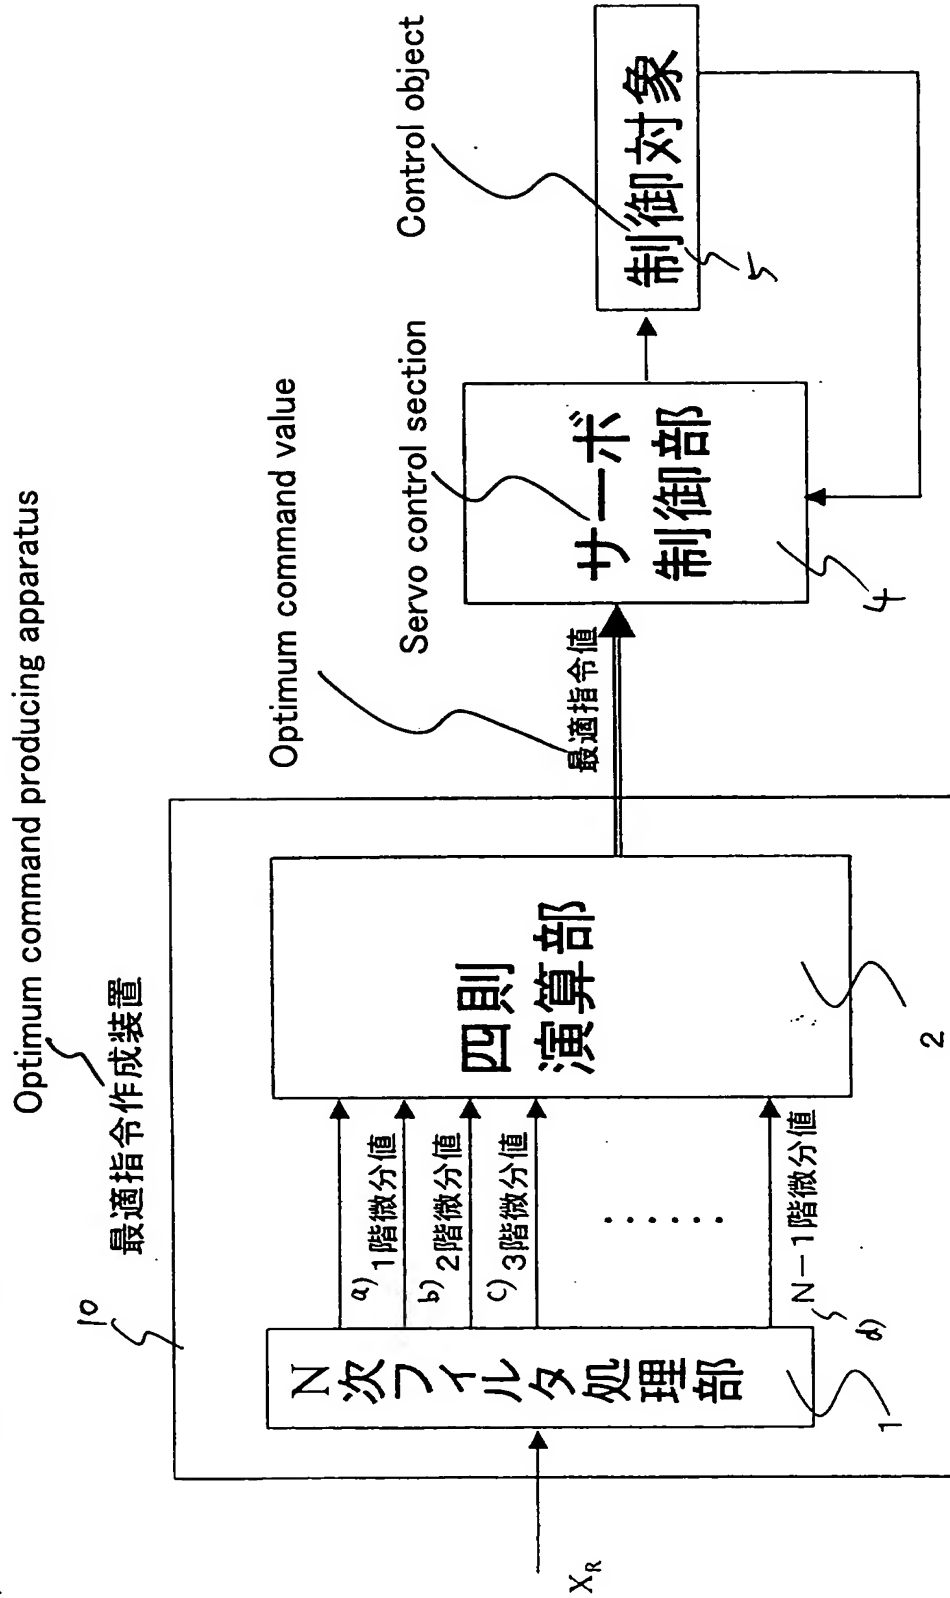

Fig. 1

- a) 1-rank differential value
- b) 2-rank differential value
- c) 3-rank differential value
- d) (N-1)-rank differential value

- 1) N-order filter processing section
- 2) Arithmetic unit

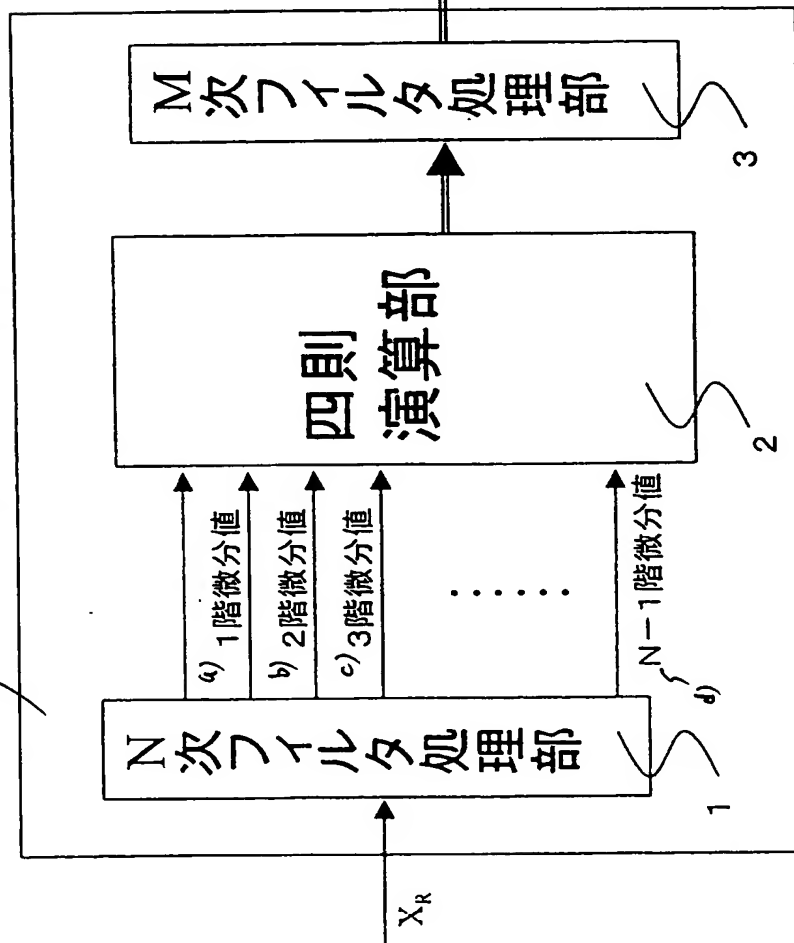

Fig. 2

- a) 1-rank differential value
- b) 2-rank differential value
- c) 3-rank differential value
- d) (N-1)-rank differential value

最適指令作成装置

10

最適指令作成装置

最適指令値

Optimum command value

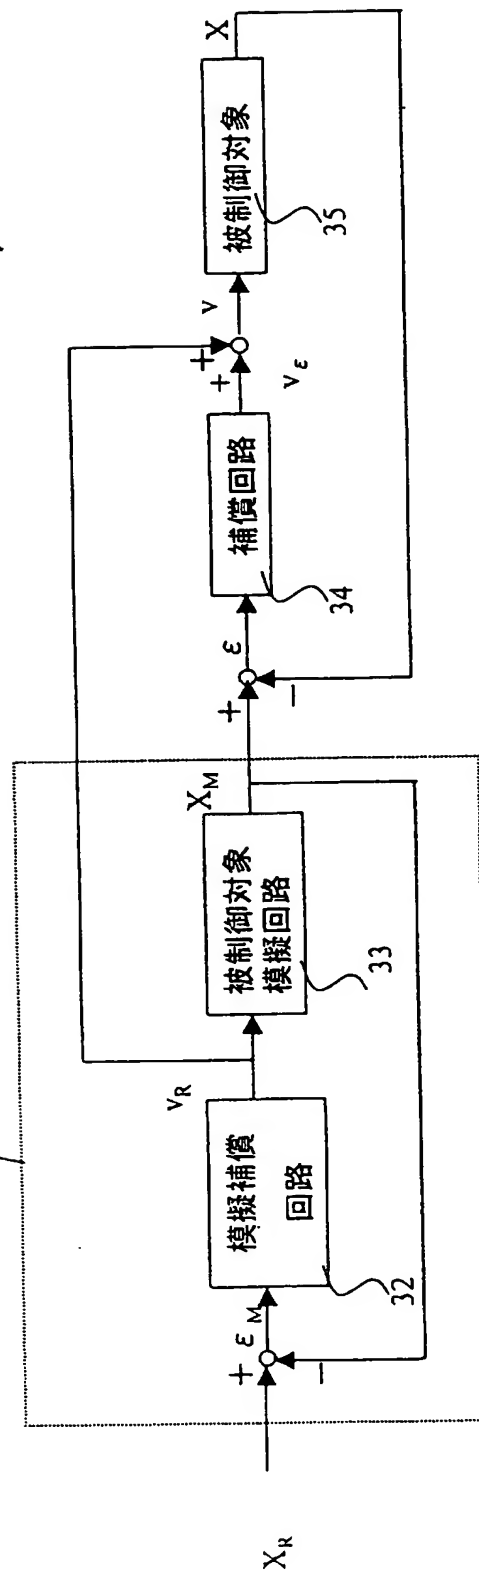

Servo control section

Control object

- 1) N-order filter processing section
- 2) Arithmetic unit
- 3) M-order filter processing section

Fig. 3

31 模擬フィードバック制御装置

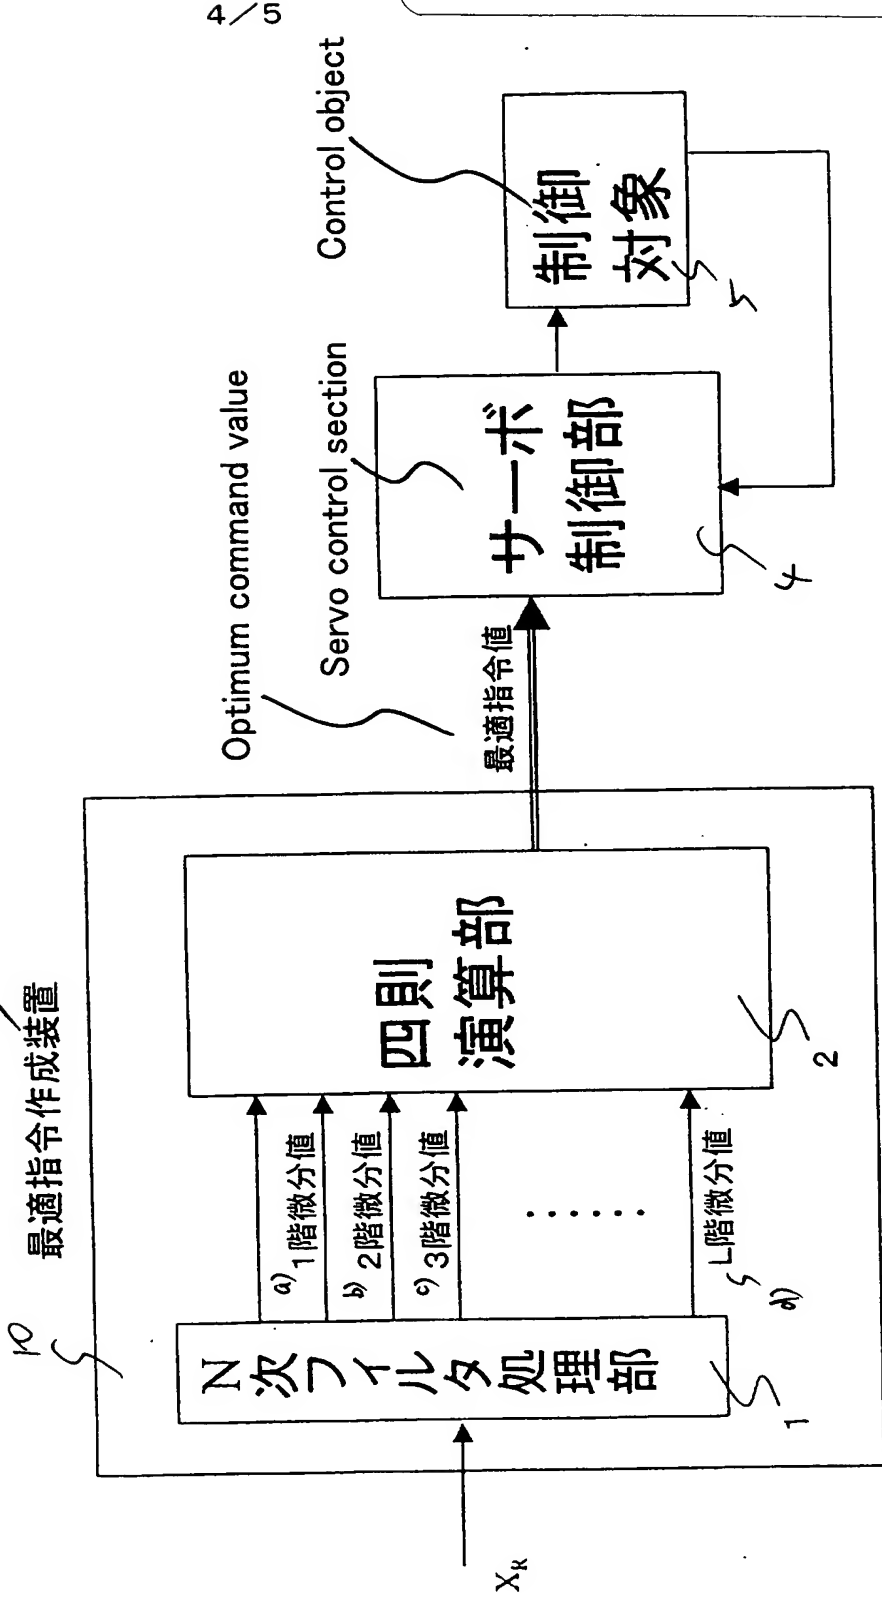

- (31) simulation feedback control apparatus
- (32) simulation compensating circuit
- (33) controlled object simulating circuit
- (34) compensating circuit
- (35) controlled object

Fig. 4

- a) 1-rank differential value
- b) 2-rank differential value
- c) 3-rank differential value
- d) L-rank differential value

Optimum command producing apparatus

- 1) N-order filter processing section
- 2) Arithmetic unit

5/5
